

Heartland Institute's

Fourth International Climate Change Conference

Mannkal's Chairman, Ron, attended this conference in Chicago during May, where the Mannkal Foundation was one of the 64 conference sponsors and was ready to lodge his report in time for our *Freedom Focus*.

However, he just asked for his report to be replaced by the following two entertaining and informative reports from fellow delegates:

- James Delingpole – My moment of rock-star glory at a climate change sceptics' conference in America:
<http://www.mannkal.org/downloads/environment/jamesdelingpole.pdf>
- Leon Ashby – Climate Sceptics' News & Views:

Enjoy!
