

[Where's the Global Warming?](#)

Heartland Institute
14th January 2010

The argument that human activity is causing the planet to warm to dangerous levels is falling apart faster than NBC's relationship with Jay Leno and Conan O'Brien.

In an entertaining new video, The Heartland Institute asks the question on the lips of everyone this winter: "Where's the Global Warming?". The evidence shows undeniably the globe has cooled over the past 10 years. And this has been one of the harshest winters in decades in regions across the globe.
