December 19, 2008*

GLOBAL warming preachers have had a shocking 2008.

So many of their predictions this year went splat!

Here's their problem: they've been scaring us for so long that it's now possible to check if things are turning out as hot as they warned.

And good news! I bring you Christmas cheer – the top 10 warming predictions to hit the wall this year.

Click here to find out what came in at number one:
