A Century of Milton Friedman

Montage film screening and personal reflections

To commemorate a century since the birth of one of the most important economic thinkers, join us for the screening of a montage of Johan Norberg's documentary "*Free or Equal*" and "*A Conversation with Milton Friedman*" from the Intellectual Portrait Series. Milton Friedman was an extraordinary scholar and public intellectual who was one of the most influential economists of the past 100 years. The abolition of the military draft, the legalisation of drugs and the unparalleled ability of competitive markets to lift people out of poverty were all championed by Friedman.

This will be followed with some personal reflections from Winthrop Professor Ken Clements, UWA Business School and Mr Ron Manners, Mannkal Economic Education Foundation. Refreshments will be provided.

"The society that puts equality before freedom will end up with neither. The society that puts freedom before equality will end up with a great measure of both."

- Milton Friedman
