

MANNKAL ECONOMIC EDUCATION FOUNDATION joins international celebration of Milton Friedman

PERTH, WA – The Mannkal Economic Education Foundation is part of an international effort celebrating the life and legacy of Milton Friedman, the late Nobel Prize winner who is considered one of the 20th century's leading economists. At UWA Business School from 5:30pm – 7:30pm on Thursday 9th August, event organizers plan to welcome over 90 professionals, students and Friedman enthusiasts to a montage screening of John Norberg's documentary 'Free or Equal' and 'A Conversation with Milton Friedman' followed by refreshments. Friedman's theories on free markets and limited government dominated the economic and political discourse in the latter half of the 20th century. His opinions countered those of British economist John Maynard Keynes, who advocated for greater government spending as a way to prevent economic downturns. Friedman also gained notoriety for his book "Capitalism and Freedom" and the PBS special "Free to Choose."

"There is a lot Western Australian residents and leaders can still learn from Milton Friedman," said Robert Enlow, president and CEO of the Friedman Foundation for Educational Choice, which Dr. Friedman and his wife, Rose, founded in 1996. "For those WA residents interested in boosting their economy, improving government, and providing access to a quality education for all, they should attend Mannkal's Friedman Legacy for Freedom Day gathering."
