

The Presidential Election and Obama's "Mandate"

How did Obama win? Amazing isn't it?!

Interesting Statistics

Professor *Joseph Olson* of Hamline University School of Law, St. Paul, Minnesota, points out facts of 2008 Presidential election:

Number of States won by:

Democrats: 19

Republicans: 29

Square miles of land won by:

Democrats: 580,000

Republicans: 2,427,000

Population of counties won by:

Democrats: 127 million

Republicans: 143 million

Murder rate per 100,000 residents in counties won by:

Democrats: 13.2

Republicans: 2.1

Professor Olson adds:

"In aggregate, the territory won by Republicans was mostly land owned by the taxpaying citizens of the country.

Democrat territory encompassed mostly those citizens living off various forms of government welfare.

Professor Olson believes the United States is somewhere between the "complacency and apathy" phase of Professor Tyler's definition of democracy with some forty percent of the nation's population already having reached the "governmental dependency" phase.

If Congress grants amnesty and citizenship to twenty million *illegals* and they vote, then we can say goodbye to the USA in fewer than five years.
